Quick Reference Guide: *Manage Delegations***Keep in mind**

- An employee is able to delegate their tasks to another worker who holds the same or similar role.
- You can specify the time period for which you would like the delegation to be effective.

Information Needed

- Begin and End Date
- Name of person the delegated tasks are going to
- Business processes to be delegated

Steps:

You role should only be delegated to someone who holds the same or similar role to you (i.e. Budget Partners can delegate their role to an HR Partner in the same org). If there is another individual in your organization(s) that holds your role, you do not need to delegate since all of the same tasks will appear in their inbox. You can establish a timeframe for the delegation, as well as the specific business processes they want performed on their behalf.

1. From the **Search** field, enter *My Delegations* and click on the result.
2. View the **Current Delegations** tab to view existing delegations.
3. Click the **Manage Delegations** button.
